***Election/Restriction***

1. Applicant has not listed the claims that correspond to the previous species restriction requirement. Applicant has essentially stated that all claims are generic by stating that all claims read on Fig. 1, which is considered non-responsive as stated in the previous restriction requirement. Applicant on page 5 of the Specification, clearly states and outlines eight embodiments corresponding to the species/figures as outlined in the previous restriction requirement, and which are considered patentably distinct.

In complete response to this action, Applicant must identify the species elected and claims readable thereon.

Failure to properly respond to this action will raise the question of abandonment.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Primary Examiner Paul Hirsch whose telephone number is (703) 308-2697.
